TRADING & CONTRACTING

# About Our Company

Zenvira Trading & Contracting is a Qatar-based company offering integrated solutions in MEP works, building material supply, and installation services. With 12 years of industry experience, we aim to deliver high-quality, efficient, and cost-effective services to clients across residential, commercial, and industrial sectors. Backed by a skilled workforce and strong technical expertise, we strive to become a reliable partner in Qatar's construction and infrastructure development.

## ✓ VISION

To be a trusted leader in delivering innovative and sustainable MEP and construction solutions in Qatar.

## ✓ MISSION

To exceed client expectations through quality service, timely delivery, and professional excellence.

## ✓ CORE VALUES

- Quality & Safety
- Integrity & Transparency

- Technical Excellence
- Customer Satisfaction

# Our Services

## MEP Works

Our MEP (Mechanical, Electrical, and Plumbing) works encompass the complete design, supply, installation, testing, and commissioning of essential building systems that ensure safety, comfort, and operational efficiency.

## Fire Protection System

A Fire Protection System is designed to detect, control, and suppress fires through integrated equipment like sprinklers, hydrants, pumps, and extinguishers. It ensures reliable safety measures to protect lives, assets, and property in residential, commercial, and industrial environments.

## Fire Alarm System

A Fire Alarm System detects smoke, heat, or fire at an early stage and alerts occupants through audible and visual signals. It enables quick evacuation and timely response, helping to prevent injuries, minimize damage, and enhance safety in buildings.

## Gas Suppression System

A Gas Suppression System uses specialized clean agents or gases to extinguish fires without leaving residue or causing damage to sensitive equipment. It offers rapid fire control in critical areas like data centers, server rooms, and electrical spaces, ensuring safe and efficient protection where water-based systems are not suitable.

## Supply of Building Materials

We provide a comprehensive range of high-quality building materials required for residential, commercial, and industrial construction projects. Our offerings include electrical, mechanical, plumbing, civil, and finishing materials sourced from trusted manufacturers. We ensure timely delivery, competitive pricing, and products that meet industry standards, enabling smooth project execution and long-lasting performance. With a strong supply chain network and expert support, we serve as a reliable partner for all construction material needs.

## Installation Services

We offer complete installation services for electrical, mechanical, plumbing, and HVAC systems, ensuring seamless integration and reliable performance across all building types. Our skilled team handles equipment setup, system configuration, testing, and commissioning with strict adherence to quality and safety standards. From small-scale installations to large commercial and industrial projects, we deliver efficient, timely, and cost-effective solutions that meet project specifications and enhance long-term operational efficiency.

# MEP Works

- ✓ Complete Electrical Installation & Maintenance
- ✓ Plumbing and Sanitary Systems
- ✓ HVAC Systems including AHU Units
- ✓ Fire Alarm & Fire Fighting Installations
- ✓ Structured Cabling & System Integrations
- ✓ Structured Cabling & System Integrations

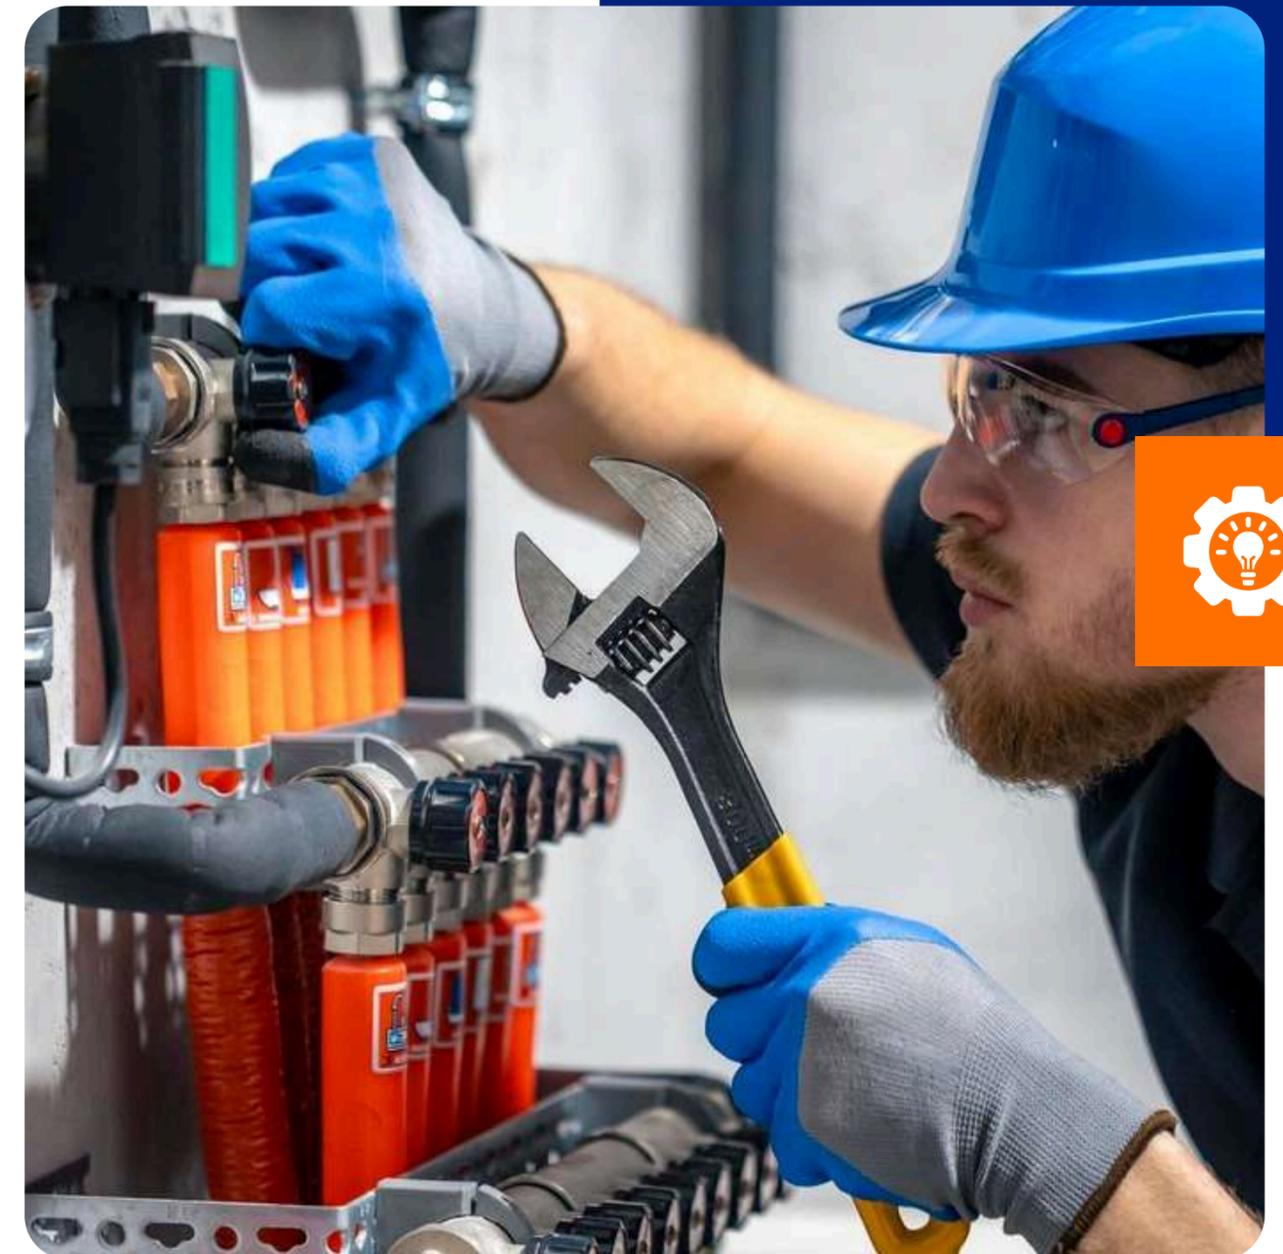

# Complete Electrical Installation & Maintenance

[www.zenviraqatar.com](http://www.zenviraqatar.com)

We specialize in the complete installation, testing, commissioning, and maintenance of electrical systems for residential, commercial, and industrial projects. Our services include power distribution, lighting solutions, switchgear and panel installations, cabling, earthing, ELV/LV systems, and emergency power setups. We ensure compliance with local regulations, safety standards, and energy-efficient practices. Our dedicated team carries out preventive and corrective maintenance to minimize downtime, enhance system reliability, and extend equipment lifespan—providing uninterrupted electrical performance for your facility.

- ✓ **Lighting Systems**
- ✓ **Control Panels**
- ✓ **Cabling Works**
- ✓ **Earthing Systems**
- ✓ **Fire Alarm & ELV**
- ✓ **Backup Power**
- ✓ **Testing & Maintenance**
- ✓ **Commissioning**

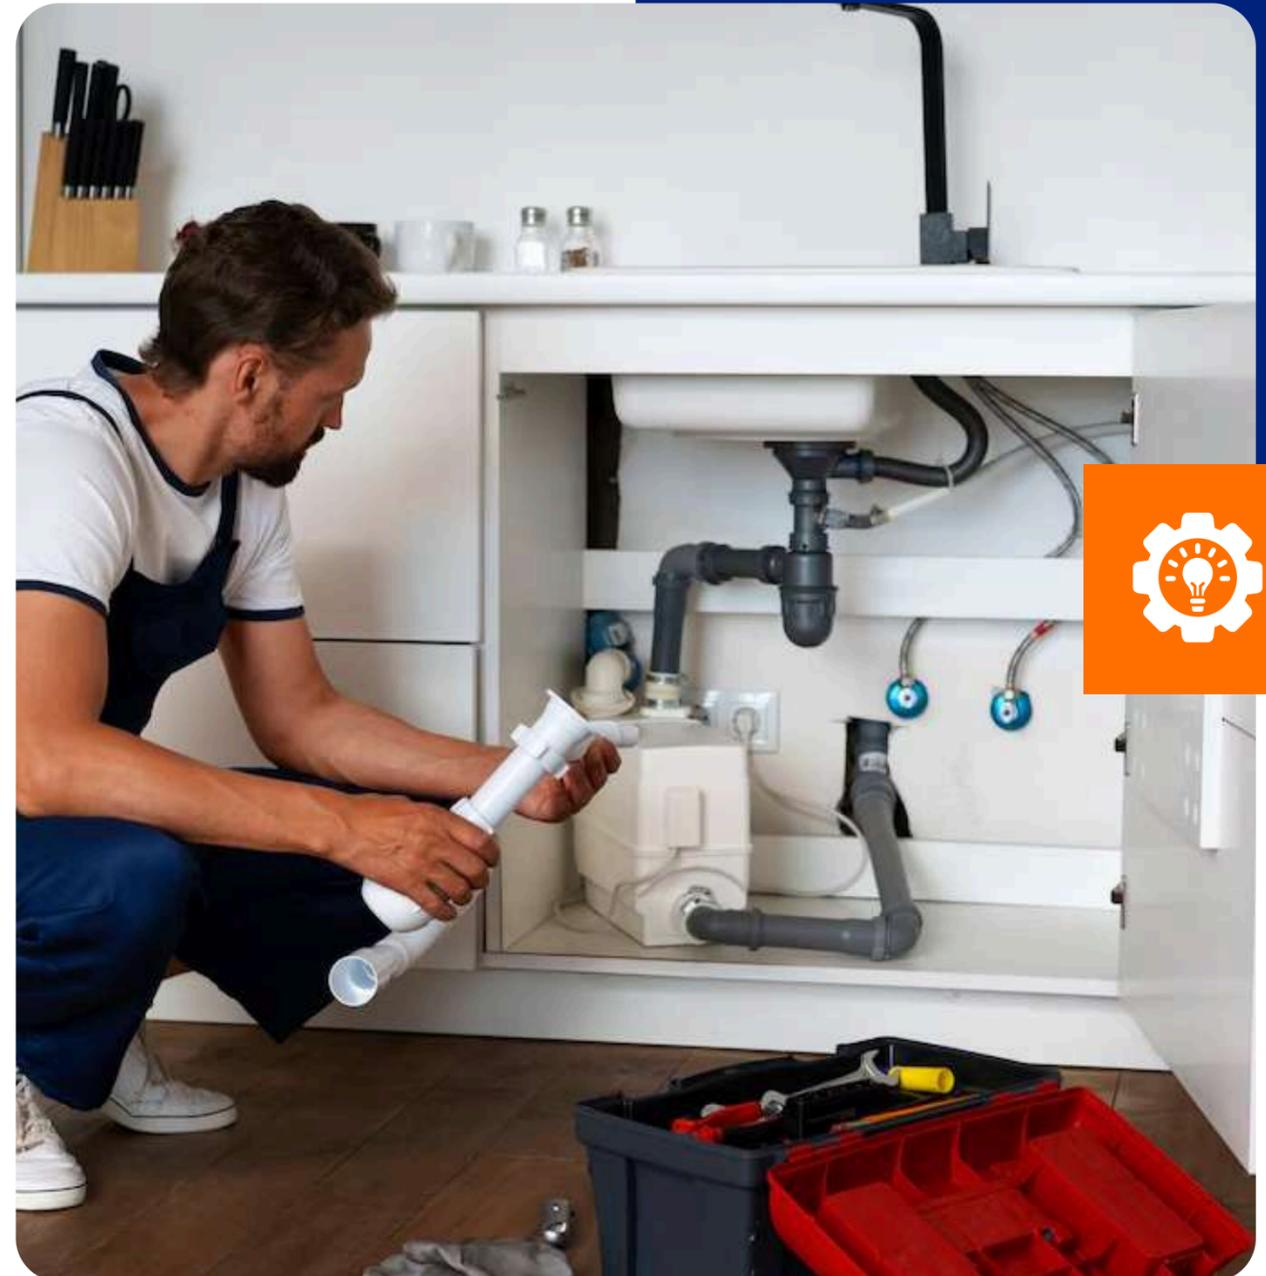

# Plumbing and Sanitary Systems

[www.zenviraqatar.com](http://www.zenviraqatar.com)

Plumbing and sanitary systems involve the installation and maintenance of water supply lines, drainage networks, and sanitary fixtures. These systems ensure clean water distribution, efficient waste disposal, and hygienic conditions for residential, commercial, and industrial buildings.

- ✓ **Water Supply Systems**
- ✓ **Drainage & Sewage**
- ✓ **Sanitary Fixtures**
- ✓ **Pumping Systems**
- ✓ **Irrigation Networks**
- ✓ **Water Tanks & Piping**

# AC Ducting

AC ducting is an essential component of HVAC systems, designed to distribute cooled or conditioned air throughout a building. It involves the fabrication and installation of ducts made from GI, PI, or other insulated materials to ensure efficient airflow, temperature control, and energy efficiency. Proper ducting minimizes air leakage, enhances indoor comfort, reduces operating costs, and supports the overall performance and longevity of the air conditioning system.

- ✓ Fm 200 System
- ✓ Inergen System
- ✓ Novec Clean Agent System
- ✓ CO<sub>2</sub> System
- ✓ Kitchen Hood System

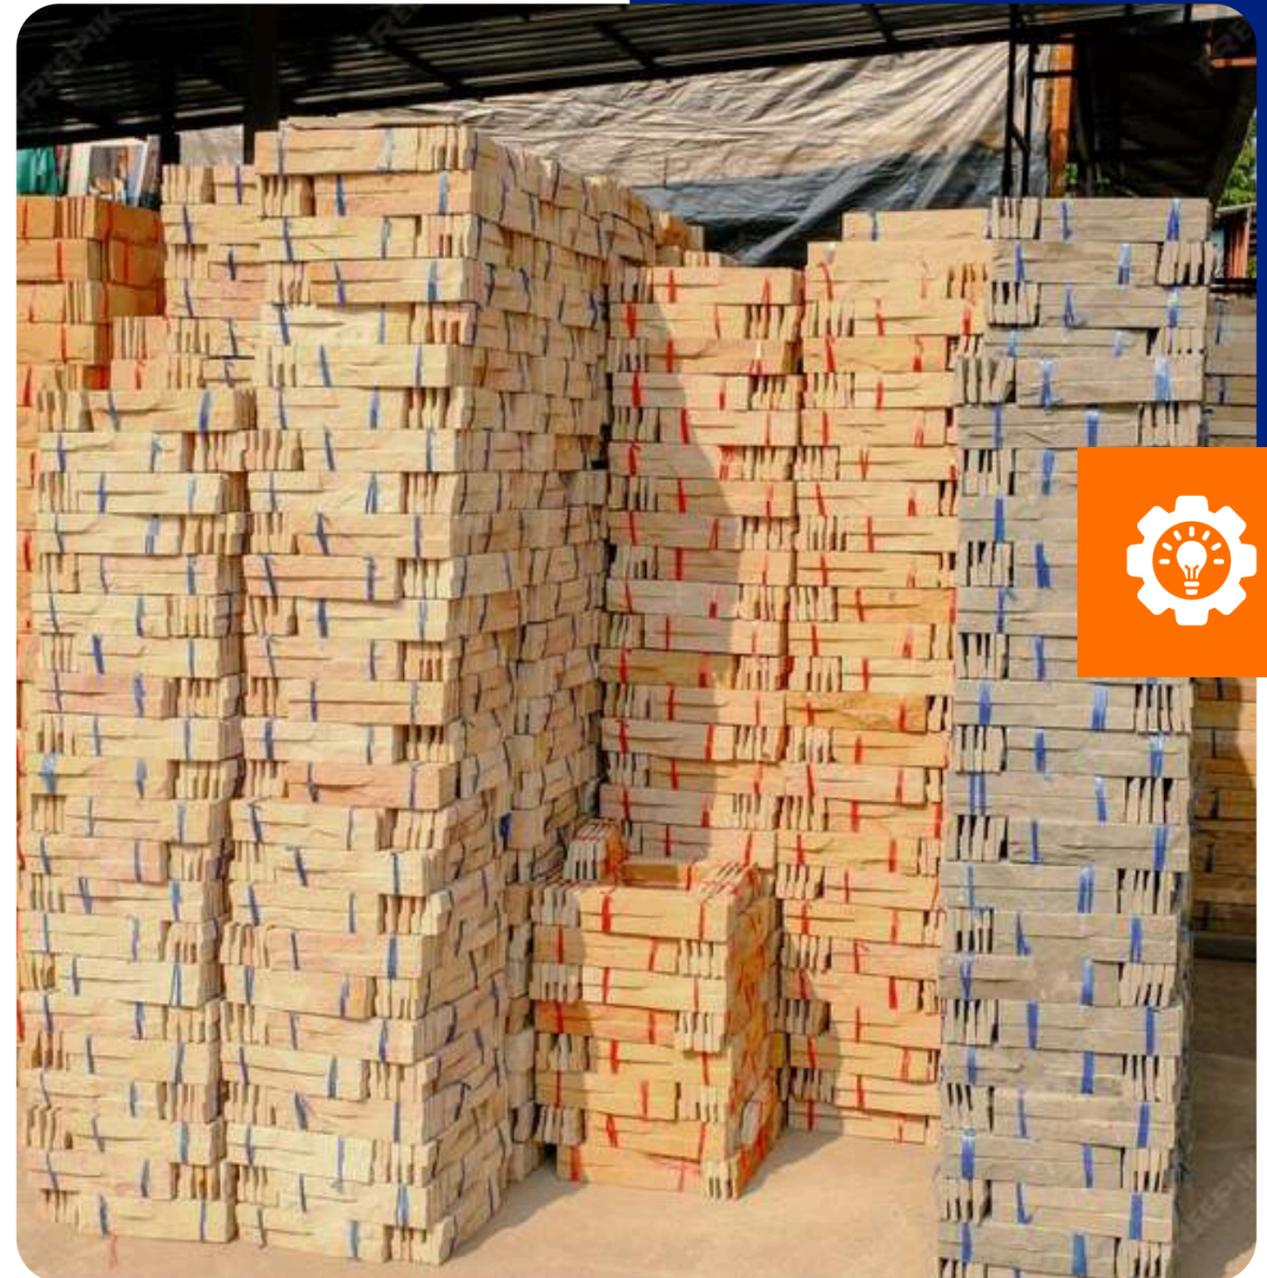

# Supply of Building Materials

We supply a wide range of high-quality construction materials required for Electrical, Mechanical, Plumbing, HVAC, and civil works. Our products are sourced from reliable manufacturers to ensure durability, safety, and compliance with industry standards. With competitive pricing, timely delivery, and expert support, we provide material solutions that meet the needs of residential, commercial, and industrial projects.

- ✔ **Electrical Materials**
- ✔ **Mechanical Materials**
- ✔ **Plumbing Materials**
- ✔ **HVAC Materials**

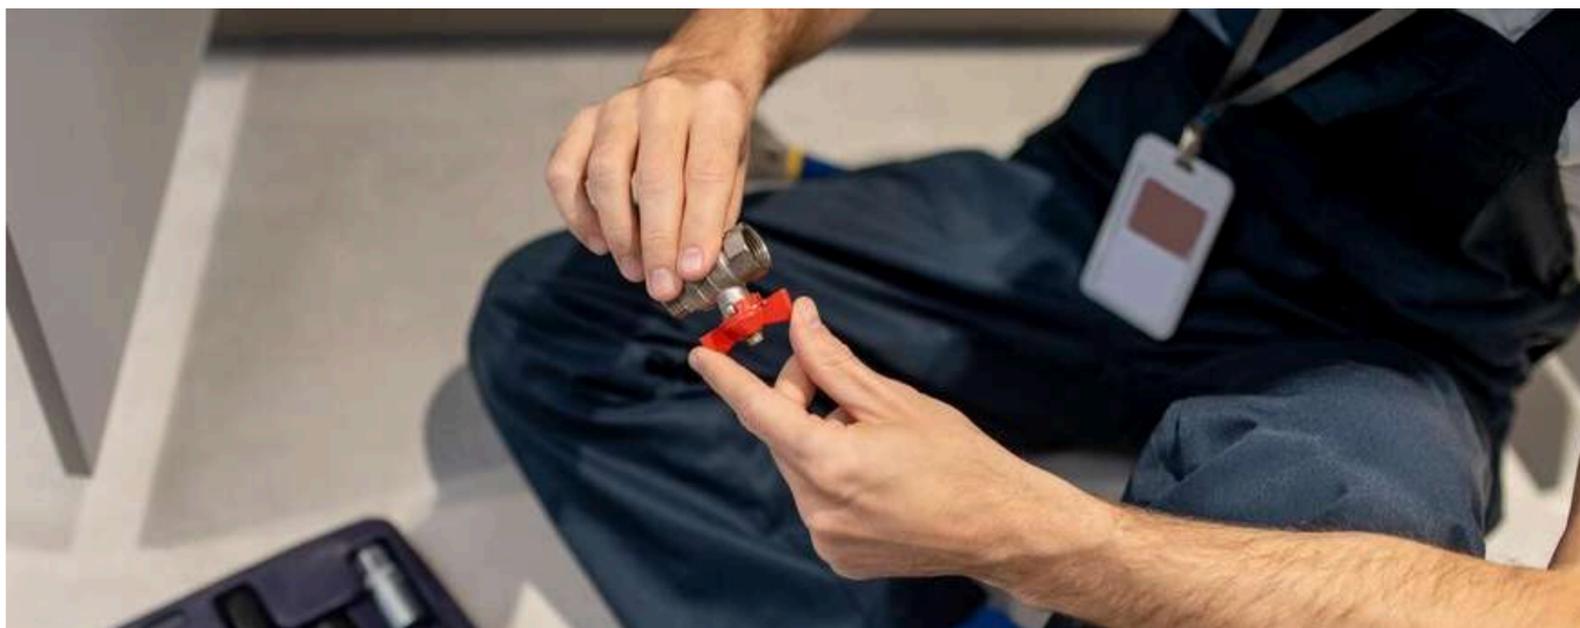

- ✔ **Civil & Construction Materials**
- ✔ **Finishing Materials**

# Installation Services

We provide complete installation services for electrical, mechanical, plumbing, and HVAC systems, ensuring seamless integration and reliable performance across all project types. Our team handles equipment setup, system configuration, testing, and commissioning with strict adherence to industry standards and safety regulations. Whether for residential, commercial, or industrial applications, we deliver efficient and timely installation solutions tailored to meet project specifications and client requirements.

# Our Products

**Fire Bell**

**Fire Hose Reels & Racks**

**Fire Alarm System**

**Fire Sprinkler**

**CO<sub>2</sub> System**

**FM-200 System**

**Fire Extinguisher**

**Hydrant Equipments**

**Fire Pumps**

**Kitchen Hood System**

**Novec Clean Agent System**

**Inergen System**

# Projects / Experience

Though Zenvira is newly established, our technical team brings years of hands-on experience delivering projects in:

- Residential & Commercial Buildings
- Retail Outlets & Malls
- Healthcare & Educational Institutions
- Villas, Warehouses, and Industrial Facilities

Our team has worked under reputed companies and brings proven capability in execution and compliance.

# Our Team

We are backed by a diverse and experienced team:

- Project Engineers
- Site Supervisors
- Certified Electricians & Plumbers
- HVAC Technicians
- Skilled Labour Force

Each member is trained in safety protocols and quality procedures to deliver excellent results.
